Allowable Subject Matter

Claims 1, 3-20 and 22-56 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or render obvious a method for fabricating a MEMS device on a substrate having a movable MEMS element portion free from the substrate and disposed adjacent a stationary MEMS element that is in mechanical communication with the substrate the method comprising the steps of: providing a wafer having opposed first and second surfaces, wherein the wafer includes a first layer and second layer disposed outwardly from the first layer such that the second layer has an outer surface that provides the first surface of the wafer, forming a recess into the first surface to produce a spacer member disposed outwardly from the recess, mechanically connecting the spacer member to the substrate to form a composite structure having a void disposed therein; and removing a portion of the wafer to expose the void and to release the movable MEMS element from the stationary MEMS element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roberts Culbert whose telephone number is (571) 272-1433. The examiner can normally be reached on Monday-Friday (7:30-4:00).
